

OPENING OF EDMONTON HORSE SHOW A BRILLIANT SUCCESS; IMMENSE ARENA IS CROWDED

Never before in the history of Edmonton has there been an event to compare with that which took place last night in the mammoth stock pavilion at the exhibition grounds when in the presence of His Honour Lieutenant-Governor Biolley, members of the provincial cabinet, city council and board of commissioners, and upwards of 3,500 gallantly attired citizens, Edmonton's first spring horse show was formally opened by the Honorable Duncan Marshall, minister of agriculture.

Since the announcement some months ago that the horse show would have the pleasure of witnessing all events this year, the citizens have been anticipating with a great deal of pleasure the arrival of the day when this affair would be opened to them. During the day has also been the management has been realising with what amount of zeal and patriotism the citizens have taken hold of the event. First the entries were filled to overflowing with the best type of animals on the continent, and next the offices of the management have been almost swamped with orders for reserved seats, boxes, prizes and other tokens of interest to the occasion.

Long before the official hour for opening the immense arena was

Children Cry FOR FLETCHER'S CASTORIA

Miss MacMillan

The Musical Prima Donna, now playing at the Empire Theatre, visited the Masters Piano Co., and was delighted with every department.

The Bead Novelty Department

was of special interest, and the only display of the kind she has seen in Western Canada.

The Piano Department

was also much admired, and the pianos came in for a great deal of favorable comment.

She enjoyed several selections from the Masters' Player Piano, and declared it to be the finest instrument of the kind she has ever heard.

The Victrola Department

was especially admired, and pronounced the largest and most tastily arranged in the west.

Our Prices are the Lowest and Terms the Easiest

Home of the New Art Bell, the Piano with the Sweet Tone

tightly dotted with eager spectators who have learned the advantage of getting out on such occasions before the rush. At 8 o'clock the arena was completely filled, and the doors closed all immedately to welcome the first event of the horse show program which is to be continued for five days, while every car brought in later arrivals were turned away.

Promptly at 8:15 p.m. the citizens played "On Canada," and officials headed by Lieutenant-Governor Biolley, his honourable cabinet, the members of the city council and board of commissioners, and upwards of 3,500 gallantly attired citizens, Edmonton's first spring horse show was formally opened by the Honorable Duncan Marshall, minister of agriculture.

Since the announcement some months ago that the horse show would have the pleasure of witnessing all events this year, the citizens have been anticipating with a great deal of pleasure the arrival of the day when this affair would be opened to them.

During the day has also been the management has been realising with what amount of zeal and patriotism the citizens have taken hold of the event. First the entries were filled to overflowing with the best type of animals on the continent, and next the offices of the management have been almost swamped with orders for reserved seats, boxes, prizes and other tokens of interest to the occasion.

Long before the official hour for opening the immense arena was

Following the arrival of his honor, the Lieutenant-Governor, Honorable Duncan Marshall, Captain J. G. Stuart, officials of the Horse Show Judges and others, the address of welcome to Honorable Duncan Marshall, was read by A. B. Campbell, president of the Edmonton Exhibition association, as follows:

Address of Welcome.

Honorable Sir,
The president and members of the Edmonton exhibition association on this occasion desire to take this opportunity and this means of publicly recognizing your services in promoting the fair and the association's general agricultural interests of Alberta that will raise the standard of blood and quality among all our herds, equal to any on the continent.

Therefore, the president and the directors individually express their personal gratitude for the courteous and considerate manner in which you have treated us, and for your constant efforts to make our work easier.

In this first place we beg to tender you our thanks for formally opening this, the first annual horse show, cattle sale and fat stock show ever conducted on such an elaborate scale in this city, for the same is a credit to the organization as shown by your daily personal attendance at all our fairs and exhibitions, and your willingness to co-operate with our undertakings calculated to benefit agriculture.

We desire to express our deep sense of gratitude and obligation to you as managers of agriculture for the manner in which you are a most valuable factor in supplying the association, free of charge, with judges of the highest reputation and experience in their respective classes, and for the financial measure of financial assistance annually granted to all the associations in the encouragement of live stock breeding, agriculture and the industrial arts.

We feel confident in assuring you that this great industry has been placed in safe hands for the past few years, and the success of the great live stock seen upon the farms in the district. These exhibitions have become semi-annual occurrences, and live stock men and farmers are and are destined to be a strong educational stimulus toward scientific feeding and breeding.

On Permanent Basis.

Knowing your interest in the improvement of the live stock industry, we believe you will be delighted to learn that we have succeeded in establishing the fat stock show on a permanent basis, and that the date for the preparation and exhibition of their respective classes and for the financial measure of financial assistance annually granted to all the associations in the encouragement of live stock breeding, agriculture and the industrial arts.

We feel confident in assuring you that this great industry has been placed in safe hands for the past few years, and the success of the great live stock seen upon the farms in the district. These exhibitions have become semi-annual occurrences, and live stock men and farmers are and are destined to be a strong educational stimulus toward scientific feeding and breeding.

Sifton's Hunt Horses.

The hunt teams furnished the last night were the best ever seen, and the riders looked lively in their gaudy racing coats.

There were but three entries, all from the Sifton stable, and were won by Mr. J. A. McDonald of this city.

All three horses took the jumps like eating cats, and cleared the three hundred yards in style.

In addition to the four prize winners there were six other entries in this jumping contest, as follows:

Hughland Laddey, owned by W. J. Stevenson; Corn Cob, owned by Fred J. Stevenson; Smoky, owned by P. McDonald; Confidence, owned by H. H. Fife; and Sifton, owned by Elmhurst, owned by Hughson Sifton.

If there was any disappointment in the jumping contest it was in the performance of Confidence, the world's record holder, who, in the first round, third hurdle and touched at the second, cut, which put him outside of the competition.

The performance of Smokey was also disappointing, as he was knocked down at the first hurdle.

On the second round he came out in the clear with near performance.

Elmhurst balked at the first hurdle and was knocked down at the second, and Laddie balked twice, knocked the first hurdle touched the second and performed the balance of the contest in a very poor style.

The hard luck of all was experienced by Corn Cob who after having knocked the pole on both the first and second hurdles, made off with the third, the sailor's foot, rather heavily, and was dropped by the third performance.

The Neat treatment is a safe, sure way to cure your wife of her craving for drink in the days when you are using the use of hysterical injections, and restore your husband or son to sobriety or usefulness.

EDMONTON DAILY CAPITAL

OFFICE OF PUBLICATION—DAILY CAPITAL BLDG. 623-625 SECOND ST.

PLURAL VOTING UPON THE
UTILITY BYLAWS.

The opportunity for analysis of the results of Monday's voting upon the money bylaws, as furnished in the article set out below, will afford those who have taken more than a passing interest in Edmonton's affairs a most absorbing study and will furnish also a very accurate barometer by which to judge the sentiment of the burgesses and at the same time to estimate the possible consequences at some future date, unless a change is made, of the system of plural voting under which Edmonton ratifies or rejects all money measures.

Into the consideration of the money bylaws which have now received ratification there was projected a very strenuous opposition to the carrying out of the programme of the present council. This opposition found its expression in the Property Owners' Association which, with a number of ex-mayors, ex-aldermen and several owners of some of the most valuable property in the city upon its executive, proceeded to organize and, with a paid secretary and all equipment (including two newspapers) for the expression of its opinions, undertook to convince the burgesses that ten of the 23 bylaws should be defeated and that five of the remaining bylaws were of such doubtful merit that they could not lend them their endorsement.

Regarded in retrospect, this veto order undertaken by the Property Owners' Association was a sweeping one, since it was the least, and especially might it be considered sweeping when it is recalled into consideration that the bylaws which the association condemned included every equipment and construction bylaw which this year's council has brought forward, with the single exception of the surface work upon the streets. As an evidence that those behind the Property Owners' Association were prompted—not matter what they may have believed in themselves—but a factious feeling of hostility toward the present city council, it is worthy of note that the approved list put forward by the Property Owners' Association included, aside from the surface work on streets, only such items as the Exhibition Association grant over which the council has only nominal control, the Hospital Association grant, over which the council has no manner of control, and the deficiency bylaws, which were not created by the present council and which the present council has no reason for ever having presented except that they were necessary to rectify shortages and miscalculations in the past.

This was surely a definite enough and sufficiently complete statement to make it plain what the Property Owners' Association hoped to accomplish, but in order to make sure that there would be no misconception in the minds of those supporting the association a circular was issued upon the Saturday evening previous to the voting, setting out in detail that the association was opposed to the ten bylaws which included the construction programme, and were favorable to the eight bylaws which, with the exception of the cemetery site bylaw and the working capital bylaw, both inaugurated in 1913, covered last year's affairs.

This is the circular sent out by the association:

EDMONTON PROPERTY OWNERS' ASSOCIATION

At a meeting of the Executive of the Edmonton Property Owners' Association held at the office of the Association, after careful consideration the Executive agreed to recommend that the members vote in favor of the following by-laws:

6. Exhibition Association.
 7. Central City Office Block.
 8. City's share of debts of debentures, 1912 and 1913.
 9. City's share of street paving, 1912 and 1913.
 10. Strathcona Hospital.
 11. City's share of street grading, plank sidewalks, etc., 1912 and 1913.
 12. City's share of paving and concrete walks for 1914.
 13. City's share of grading and plank walks for 1914.
 14. Working capital.
 15. Police department site for central police station and fire hall.
 16. Police department furnishing, etc.
 17. City's share of paving for 1915.
 18. City's share of street paving for 1915.
 19. City's share of sidewalks for 1915.
 20. City's share of boulevarding for 1915.
- And agree that the following bylaws should be opposed:
4. Fire department.
 5. Police station and works department.
 8. Police department, central police station and fire hall.
 12. Fire department fire hall sites.
 14. Working capital.
 15. Police department site for central police station and fire hall.
 16. Police department furnishing, etc.
 18. City's share of paving for 1915.
 19. City's share of sidewalks for 1915.
 20. City's share of boulevarding for 1915.

And consider that the following should be left to individual members as he considers best:

1. Post and Telegraph department.
2. Telephone department.
3. Electric Light department.
11. City Park department.
12. City Water department.

Some of the bylaws which the executive ask the members to oppose are for necessary improvements for the future, but at the present time, considering the condition of the money market and the city's financial difficulties, the executive is in favor of parts and the improvement thereof, but considering that \$10,000 was spent during 1912 and 1913 on park improvements and \$10,000 more the amount the city can claim for permanent improvements, the feel is that probably all the improvements made should not have cost more than \$10,000, or, in other words, we are receiving less than 26 per cent value for money expended. An approval of the principle of bylaws 18, 19, and 20, as they stand at the moment, I express the meaning intended they should be voted against.

R. S. MCKENZIE, Secretary.

Edmonton Property Owners' Association.

With regard to this circular, it has been denied by Acting Mayor Driscoll, and has not been denied, that the association acted in bad faith. What the acting mayor said at the closing meeting was that the undertaking had been arrived at between the council and the association that upon the incorporation into Bylaws 18, 19, and 20 of protective clauses which would make it absolutely impossible to sell debentures therefore—the effect being to make these three bylaws a plebiscite upon the system of assessment—the association would withdraw opposition. The acting mayor claims that following this undertaking, which was faithfully carried out by the city council notwithstanding the opposition of Alderman Smith and Calder, there was a silence for three days upon the bylaws in question, and that it was only upon the last night, when the circular appeared, that the council had any way of knowing that there was organized effort to defeat these bylaws.

Whether or not these circumstances had anything to do with the results which the statistics of the voting so graphically set forth will, of course, always be doubtful. But this much is certain, that except in a very much prescribed area the whole list of the bylaws was carried with the exception of the misunderstood working capital and the cemetery site. In only that territory known as the West End in Edmonton and in the corresponding district to the south of the river did the recommendations of the association appear to bear any weight whatever, and even in these districts Bylaws No. 18, 19, and 20, against which the attack was levied, did not receive such overwhelming defeat as to indicate any very great reliance upon the judgment of the association.

When it is taken into consideration that the plural voting system in operation in Edmonton gives certain large property holders, through their property holdings and through the incorporated companies with which they may be affiliated, an abnormal number of votes, it will be seen, nevertheless, that a factious opposition, under the present system of voting, may become extremely dangerous to the tremendous interests with which the city has become involved through the ownership of its utilities. In some cases, under the present system, single individuals have the power to cast all the way from four votes to two or three dozen. Applying this to one of the utilities which for some reason some interests might desire to extend beyond the margin of good business—as was done in the case of the Forty-second street extension—or to contract beyond the margin of efficiency, as was done in the case of the filtration plant last year and the power plant three years ago, the power of one representative of incorporated companies to cast as many votes as two or three

dozen patrons of the utilities could scarcely be regarded as a safe situation in which to place the city's five or six million dollars' worth of utility enterprises.

An analysis of Monday's vote by anyone who gives the matter careful thought will lead inevitably to two conclusions. The first is that no matter how much they may have disapproved of the present city council, the Property Owners' Association were unable to affect anything like the majority of the burgesses with this disapproval to the second is that if these utilities are to be placed upon the safe basis the ratification or disapproval of any measure affecting any of the enterprises must be not upon a basis of how much property a burgess represents or how many companies he represents, but must be placed in the hands of those whose interests are irrevocably bound up in the success of the enterprises, namely, the patrons—tenants and property owners alike.

LAST GRAND TRUNK SPIKE DRIVEN FOR A GREAT EMPIRE

New Era in History of Canada Chronicled Near Nechoach River Crossing,

EDMONTONIANS PRESENT AT INFORMAL CEREMONY

Formal Affair Takes Place in August When All in First Class Shape.

Nechoach River Crossing, B.C., April 8.—(Special to the Capital)—After a day's absence of official ceremony but from which greater ambitions as regards the future development of the country, a new era in the history of Canada was chronicled yesterday in the first spike driving on the main line of the Grand Trunk Pacific railway, was driven shortly before 2 o'clock one mile and a half east of this point.

Five special cars from Edmonton with railway officials and guests, including representatives of the Edmonton board of trade were present to witness the driving of the first spike of steel which connected the two sections of steel were connected a large Union Jack was unfurled and amid the cheers of the party assembled, which included the chief engineer, the general manager, the chief of construction, the first gang from the eastern and western sections, the first train started on its journey through to the west. The first official left on a train which returned east connecting with the regular at McBride.

Once the steel was linked together a wire announcing the fact was sent to President E. J. Chamberlin at Montreal.

A holiday for the Winnipeg officials was also decided upon, as meeting the day after.

There was no golden spike driven, the ceremony in this connection not taking place until August when it is expected that the line will be in first class shape.

At the present time there is a large section on which is laid the skeleton track and until it is ballasted and graded in connection the closing act of the drama of building the G.T.P.R. will not be staged.

Chief Engineer B. C. Keilher and a number of other officials armed with picks and hammers and axes, the order was given go ahead, place the last rail in position. A few minutes afterwards the eastern party shook hands with those who had come out from the west.

The steel laying gangs were all in readiness when the word was given at 12 noon to drive in the last rail, which was driven in the gaps in the ends of the eastern and western gangs, and many wagers were made as to which would first reach the goal. It was decided to end the race by trying for a record in laying steel on the final mile, but in order to secure good moving pictures of the linking of the steel this display was abandoned.

The telephone line is about one week behind the construction gang, but rapid progress is being made on this work and Manager D. Smith, who is with the company stated that he expected to have connection between Winnipieg and Prince Rupert in a short time.

The train despatching telephone system, which is now in operation on several sections of the line, will be installed throughout the entire system as soon as possible.

The point at which the steel was joined in about 275 miles from Prince Rupert, 1875 miles from Winnipeg.

The first road to which the line was turned was the St. John's Road August 28, 1905, while work from the Pacific end was started in May, 1908.

The laying of steel was commenced September, 1906, at Portage la Prairie, and the last rail placed in position today.

Since the beginning of the year steel has been laid on 142 miles of the line, the contractors have been straining every resource to get the grade finished ahead of the track layers.

The rate of progress this year has been partly due to the fact that the heavy mountain work was finished and construction was confined to the broad agricultural belt of central British Columbia.

The place which saw the joining of the steel is in the district, for the Nechoach River gives its name to one of the best agricultural districts in British Columbia.

Four gunmen Must Die.

Albany, N.Y., April 8.—Governor Givens last night refused to either commute the death sentence of Alvin Karpis, or to grant them a reprieve until after the second trial of former police lieutenant Charles "Lucky" Luciano. The men must now go by execution in Sing Sing prison sometime next week, probably Monday.

Children's Drawers

These cotton drawers for children 4 to 14 years of age come in another attractive offer. Trimmed with lace and tucks, pair 25c

RIGHT CLASS OF SETTLERS COMING SUNNY ALBERTA

The rush of inquiries from intending settlers in Alberta is growing every day at the present time. Many have been repatriated for Alberta. According to Chas. S. Hotchkiss, chief public agent for the province, the number of callers seeking information

about Alberta and also the number of letters which come in by each mail asking for advice and information, were never so great. He said that the number of immigrants will this year establish a record, but there are indications that the number will be still larger. The market for land here will take up fast ground.

The class of settlers who are now making inquiries is very promising, most of them being well prepared to take up farming on a good basis right from the start.

Earthquake Felt at Trail.

Nepon, April 8.—"Trail, 40 miles west of Nelson, experienced a slight earthquake about 10 o'clock this morning after noon according to reports received here. Other places in the district also felt the tremor."

A Phenomenal Bargain—1,000 Pairs of Women's \$5 and \$6 Queen Quality Pumps and Oxfords at \$2.95

Right at the start please note that they are all this season's best lasts. One of the styles is here pictured. The lasts included are the Venus, Rival, Parfait, Plaza and Colonial. The leathers are patent, dull kid, tan calf, vici and gunmetal. Sizes 2 to 8; widths A to E. All Queen Quality make, every pair stylish, every pair guaranteed. We have the very same numbers in regular stock at \$5.00 and \$6.00 per pair. These 1000 pairs consist of small lots that the factory wanted to get out of the way. If you come here after these 1000 pairs are sold the same pumps and oxfords out of regular stock will cost you \$5.00 and \$6.00 per pair. On Thursday you get them at \$2.95

Men Can Buy Handsome Spring \$15 Suits Thursday at Half

We have left from last Saturday's wonderful sale about 75 Suits and place them on sale again tomorrow. They're regular \$15.00 values and you get them at exactly half. Tweeds and worsteds in checks and stripes, brown, tan, grey and green mixtures; sizes 36 to 42. The coats are three button, sack style, and every garment in the lot will fit in a manner that will please the most particular dresser. This is all we shall say about them—just giving you the bare facts—and the assurance that this is an exceptional opportunity to secure a rare bargain. There is not a single suit in the lot that can be duplicated for less than \$15.00. On sale Saturday at \$7.50

Men's Dollar Shirts at 50c Each Only Two to Each Customer

This offer gives promise of another one of those famous rushes that a half price shirt sale usually brings. This time it's seasonable lounge shirts with double soft cuffs and separate soft collar. Materials are plain and colored chambrays, striped cord cloths, etc. Sizes 14 to 17. Our famous \$1.00 values, while 300 shirts last Thursday, on sale, each 50c

Men's Lisle Half Hose, Mill Seconds at 12½c

These hose are the mill seconds of our regular 25c lines and the imperfections are of no consequence whatever. They have double spliced linen toes and heels and come in black and tan. These socks are to all intents and purposes as good as the regular lines at 25c. Because they are seconds the price per pair is only 12½c

LOCAL MAN LEAVES TO TAKE CHARGE OF VANCOUVER HOTEL

G. C. Stevenson, who has been in charge of the dining room at the Selkirk hotel for the past few months, will leave the city next week to take the position of assistant manager of the St. Regis hotel in Vancouver, B.C. Stevenson has had a varied experience in the hotel and restaurant business in the eastern and middle western states, Florida and the Pacific Northwest. He came to Edmonton from Portland, Oregon. His resignation leaves this city with the best wishes of the host of friends he has made since coming here.

ALBERTA PROMISED WONDERFUL FUTURE BECAUSE OF CANAL

Women Conquer Bishop, Norwich, England, April 8.—Sixteen suffragettes yesterday made an interview with the Bishop of Norwich, discussing with him the question of foreign feeding. The bishop at first refused to receive them, but after 16 hours of patient negotiation he consented to receive the palace until the following morning. He listened to their story and admitted to give it consideration.

Storm of Protest Raised.

Vanuatu, April 8.—The widespread expression of the racial children in the public schools has raised a storm of protest from both the Chinese and Japanese residents, particularly the latter.

There was no doubt that it would inaugurate a revolutionary period, breaking up the old equilibriums of the world.

The canal was already throwing a heavy economic load on continental divide areas. Canada, too, would suffer.

Trade, shipping of the prairies, and

the conversion of Vancouver into one of the greatest seaports of the world.

Vanuatu, April 8.—The Albertans

and Adequate dock facilities at Vancouver, the Atlantic farmers

and fisherman, the grain elevators,

and the port of entry, all stand to

suffer greatly if the canal is built.

Dr. Vrooman estimated that the

grain land of Canada, which totals

325,000,000 acres, while that rightly belonging to the Atlantic was only 160,000,000 acres,

and decline that was inevitable

that resulted, he estimated, in

the loss of 100,000,000 bushels of

grain annually, and that the value

of the grain lost would be \$100,000,000.

Dr. Vrooman also estimated that the

value of the grain lost would be \$100,000,000.

Dr. Vrooman also estimated that the

value of the grain lost would be \$100,000,000.

Dr. Vrooman also estimated that the

value of the grain lost would be \$100,000,000.

THE GAY WORLD.

Chief inspector and Mrs. F. G. Foster are moving into their new home, 625 Seventh Street, N.W., early next week. They have selected the Joseph Duncan house. Mr. and Mrs. Duncan left yesterday for an extended trip to Wales.

Mrs. C. Chambers, with her little daughter Fay have just arrived from Brighton, England, after a rough voyage, and will make Edmonton their permanent home.

Mr. H. P. J. Foster of Lethbridge, who has been spending the past week with his cousin F. G. Foster and family, left Monday for his home.

Mrs. W. H. Helen Montgomery of Moose Jaw, who have recently returned from California, will be the guests of Mr. and Mrs. A. W. Greaves, Twenty-fifth street, during the horse show.

The members of the women's and men's Canadian clubs are reminded again of the free illustrated lecture to be given by Mrs. Schaffer of Banff on

the First Presbyterian church tomorrow, Thursday evening. This very entertaining lecture never it has had been better received than at the Joseph Duncan house. Mr. and Mrs. Duncan left yesterday for an extended trip to Wales.

The V.W.C.A. wish to thank the wives of the members for their many hours of work which are well done and highly commendable, and the illustrations exceedingly good, hence a very enjoyable evening is assured to all who attend.

The V.W.C.A. wish to thank the wives of the members for their many hours of work which are well done and highly commendable, and the illustrations exceedingly good, hence a very enjoyable evening is assured to all who attend.

The equal division league meetings will be held at the Macleay school will be addressed by well-known speakers and it is desired that a large number of citizens should hear the latest views in this very vital topic.

EDMONTON TURNS OUT EN MASSE FOR OPENING OF HORSE SHOW.

Edmonton's elite turned out en masse last night to witness the opening events of the horse show and filled the large arena to overflowing.

An early hour box holders and their parties took their places, and when the vice-regal carriage arrived with his excellency the governor and his wife, the grand and representative audience rose as one person when the first six bars of "God Save the King" sounded. There is no doubt that this horse show will be a success.

A prettier and more inspiring sight than the vast amphitheater gaily festooned from pit to dome in the blue and yellow of the exhibition flags, and the crowd in Edmonton's edition gathered there to celebrate this epoch-making event. There was youth and beauty, age and dignity, those who have the high merit of being themselves, and those who have lost their sash and white not loudly applauding the performance, there was a hushed and expectant stillness that showed the large audience that something that was going on in the show ring. The military in their full dress uniforms added a dazzling bit of color to the general scheme of things, and no event of the evening was so persistently applauded as

DR. DOVAN'S FEMALE PILLS Retain monthly menstruation. Safe Control. \$1.00 a box; three for \$1.50 at drug stores. Mailed to the States, Canada, U.S.A.

Among the leading performers were Mrs. Kathleen and Evelyn Murphy, Mrs. Kathleen and Evelyn Murphy, Mr. and Mrs. Douglas, Mr. and Mrs. Ernestine, Mr. and Mrs. Keane, Mr. and Mrs. Charles.

For the Luncheon Table.

Norway's thrifty housekeeper is economizing as much as possible on the napery for her luncheon table, having a due regard for the cost of having more expensive soft linens. Instead of buying a dozen of napkins, she is buying the ten-yard bolts of Japanese printed cotton, printed in slate blue or green, and making them up in sets of four, according to the size of her family and the length of her dining table and these she finds a great saving to her household budget. If one of the girls stained, there is always an extra one to take its place so that a single set will usually last an entire week.

"Joseph in Land of Egypt"

"POLLY OF CIRCUS"
LYCEUM OFFERING
PROVES A WINNER

It is seldom that a play meets with the universal approval of so many different classes of theater-goers as does "Polly of the Circus," which has attracted at the Lyceum this week. For tender sentiment, well developed situations and novel characters "Polly of the Circus" has any peer in the list of modern beauties.

There is a sermon in "Polly of the Circus." It is the sermon with Dan Cupid as the central figure. The play shows that however wherever a man and a woman meet with love lead in opposite directions but whose love for each other breaks down all barriers there will happiness find a home.

There is also a sermon in "Joseph and Naomi in the Bible, which plays such an important part in the development of the second act not only a lesson of the importance of sacrifice but it is introduced at such a time during the action of the play that it cannot help but strike a sympathetic chord in the breast of all auditors.

At the Monarch Theatre for today only there will be presented a sensational drama in four parts, "The Queen's Jewels," that is sure to please the many patrons of this popular theatre.

"The Flaming Diagram," a two-part sensational Imp feature with Bagot and Leah Baird will be shown tomorrow.

The story is about a formula to the key of an inventors invention. The spiceman managed to secure the diagram supposed to lead to the hiding place of the formula, but they were unable to find it and the inventors came back to the inventors son.

Erikson, Inventor of high explosives, would not sell his secret as he wished his family which consisted of his wife and daughter, with benefit of his formula in case of his death.

His daughter, Lillian is in love with a clerk in the war department, and is reading a roman à clef, another country trying to keep him away, but Erikson, still fearing for his secret, would not let go, so he may believe it was good and sacred.

"The swimming adventure happened when we were working out the film 'Too Late' at the Flaming Diagram this week. I was the mermaid in question and with my feet tied together, and a head of hair, I swam across the pool. I was nearly drowning in a bunch of seaweed. I wanted to escape the on-swinging pendulum. Well, when it came to the point, the leading man and I had to crawl under the dead horse and let the waves sweep us away, until we reached the shore.

High tension of the plot and the imagination of his chief, hires two cracksmen to break into the safe and secure the formula.

The inventor dies suddenly, the cracksmen are interrupted in their work by a messenger sent to secure the formula, they capture the messenger and kill him. The inventors wife, who was the mother of the two cracksmen, goes to the police and demands justice. She runs into the mermaid and the inventors son, who is the key to the safe and the formula.

While he and his sister are puzzling over this, his cigarette accidentally lights the blank sheet of paper, which in a peculiar way and leaves the diagram.

"The Mutual Girl" comes again to the Bijou in the eighth installment of this unique feature serial production, the greatest movie ever attempted since the popularity of pictures as a means of entertainment. This series is noteworthy in many ways, but will run for another year, there is an enormous cast of a number of distinguished persons, and the important and interesting plots of interest are shown, having a variety in the scenes. Alice Moore, Phillips, who portrays the part of Margaret, the Mutual Girl, is a young lady possessing unusual charm, yet modesty and innocence which entitles her to the admiration of all great people she is called upon to talk as a part of the picture. Because she combines all these most necessary traits Miss Moore is soon to be known by the direction of this great production from the hundreds of pretty and talented actresses of their casts.

"Too Late" is the title of the two-set serial produced by the Selig company that will also be in this program. It tells a more peculiar story, yet one that attaches itself well to the hearts of the audience. It gives a new meaning to the term "too late," in the meeting of the two great people she is called upon to talk as a part of the picture. Because she combines all these most necessary traits Miss Moore is soon to be known by the direction of this great production from the hundreds of pretty and talented actresses of their casts.

RAILWAY COMMISSION'S DECISION AS TO WESTERN FREIGHT RATES

(Continued.)

rate from Winnipeg to Regina is reduced by 4 cents per ton, Swift Current by nine, Calgary twelve, Lethbridge fifteen, Saskatoon thirteen, Edmonton sixteen and Lethbridge ten cents per hundred pounds.

From Regina the first class rate is reduced to Broadway by three, to Swift Current by one, Medicine Hat seven, Colby 13, Saskatoon six and Wilkie 18 cents per hundred pounds.

From Regina the first class is reduced to Hardisty by seven, Wymondroy four and Davidson four cents per hundred pounds.

From Calgary to Regina, 10, to Macleod, 12, to Virden, 14, to Lethbridge, three, Cardston four and Ferndale eight cents per hundred pounds.

From Edmonton to Saskatoon, four, to Colby 13, Wilkeson six, Calgary 15, Fort Macleod, 18, River, seven and Lethbridge nine cents.

Similar Reductions Made

Similar reductions are made from other points on the main line. From Virden to Ashcroft, 10, to Kamloops, 30, Revelstoke 26, Nelson 15, and Colby seven cents per hundred pounds.

Reductions from eastern to western Canada are based on those charged from Port Arthur or Fort William. After citing reductions already made by the order of the board, in the regional rate case, the commission states that no more uniform basis exists.

Local grain and flour rates are substantially reduced by two methods: first by a direct reduction ranging from 10 to 20 cents per cent and second by making the terminal point William the maximum that may be charged between intermediate stations. For example, Broadway to Winnipeg, now 20 cents per cent per hundred pounds, and Colgate to Winnipeg now 42 cents through the application of

Dr. Morse's Indian Root Pills

are just the right medicine for the children, when they are constipated — when kidneys are out of order — when over-indulgence in some favorite food gives them trouble — Dr. Morse's Indian Root Pills will quickly and surely put them right. Their vegetable nature neither sickens, weakens nor upsets the stomach. Guard your children's health by always keeping a box of Dr. Morse's Indian Root Pills in the house. They're good for the children.

The Club That Knocked Half The Rub Out Of SCRUB

the Fort William rate as maximum becomes 24 cents per hundred pounds. The west bound rates on the flour and other grain products are similarly reduced. This is an endorsement of the complaint of the United Farmers of Alberta, and the suggestion of the Winnipeg board of trade.

The United Farmers of Alberta also won in their application for reduced rates on their products in British Columbia stations.

Coast rates from Lethbridge and other Alberta mines are substantially reduced. The rates from Fort Colby from \$1.00 per ton to \$1.40 to Edmonton from \$2.55 to \$2.20, Swift Current, \$2.10, Virden to \$2.40, Saskatoons \$2.55, \$2.80, and so on.

Saskatoons rates reductions made by the board are confirmed and others made. Thus, from Estevan to Brandon from \$1.70 to \$1.40, Carlton from \$1.50 to \$1.30, Brandon \$2.30 to \$2.00, Rapid City from \$2 to \$1.30, Swift Current \$2.15 to \$1.70, Colby \$2.40 to \$1.90, Saskatoon \$2.10, Virden \$2.20 to \$2.00 per ton. From Merritt, B. C., the rates from \$1.80 to \$1.65, to Kamloops from \$2.00 to \$1.75, to St. Lamantia from \$2.50 to \$2.20, Penitentiary from \$3.30 to \$2.80, to Nelson from \$4.10 to \$3.65 per ton.

Car load sugar rates from Raymond, Alta., to Prairie points also receive attention. Lethbridge, 10, to 12 cents, 38 cents; Virden, 60 to 51 cents; Carlton, 31 to 23 cents; Edmonton 20 to 37 cents; Regina 50 to 42 cents per car.

The special alliance rates on butter, cheese and eggs, dressed meats and dressed poultry between all prairie points come in for reductions.

Special alliance tariffs on vegetables, meat, cheese, eggs, dried fruits and vegetables. Most of these are reasonable, the rates however, in Saskatchewan and Alberta which are on a somewhat higher scale are reduced to the new rates.

The special alliance rates on fruits and vegetables from British Columbia which have been revised and reduced since the complain against them was launched by the United Farmers of Alberta, are held unchanged.

The rates on cement from Winnipeg are shown to vary little from those of Ontario, and are reduced, but the higher rates from cement plants in Alberta and Saskatchewan are reduced to the Winnipeg scale.

Sugar Rates Unchanged

Lumber and Joinery work, from British Columbia, were rates have been almost reduced following the board's order in July, 1913. A table showing some of the reductions accompanies the judgment.

The rates on sugar from Vancouver and Victoria, were the complainants against them were reduced since the complain against them was launched by the United Farmers of Alberta, are held unchanged.

The rates on cement from Winnipeg are shown to vary little from those of Ontario, and are reduced, but the higher rates from cement plants in Alberta and Saskatchewan are reduced to the Winnipeg scale.

Seizes a Baton and Hurls it at the Head of the Sitting Magistrate.

London, April 7.—A lad, enraged in Marlborough street police court today when "General" Mrs. Flora Drummond, the militant suffragette, again was brought up and sentenced to pay a fine of £10, ran up to the bench and threw a baton at the magistrate.

No reduction is made in live rates which are shown to be reasonable in view of the favorable low land minimum weights and the volume of traffic.

The rates on general merchandise, lumber, stones, gravel and sand, were found to be generally lower than those applying in Ontario but the higher rates prevailing in Alberta and Saskatchewan are reduced to the lower Alberta rates.

Bates on oils, concentrates and smelted products in and from British Columbia are found to constitute a large percentage of the traffic of that province and are remunerative only in the sense of contributing to the general prosperity.

The "General" valiently declared that she would never pay the fine. She was forcibly removed to a cell. All she did was to sit down and cry. She kept up a fierce struggle with the lie and warden and shrieked denunciations of every one present.

Even a sister suffragette, Margaret, who had been the victim of a verbal attack because she did not storm the prisoners' enclosure and release the "general,"

Solicitor General's lantern, Mrs. Drummond flung it at the magistrate's head but he dodged the missile.

Taking advantage of the diversion, Mrs. Drummond slipped from the enclosure but was captured before she got far away and was carried back shouting and struggling.

Vancouver, April 8.—J. Waldron, South Vancouver dealer, was recently fined \$10 under the Lord's Day Act for selling bread on Easter Sunday. He therefore does not feel justified in directing any change until the board is afforded an opportunity of seeing what improvement in passenger revenue will result from the improvements in rail and grades and operating facilities which the railway is at present making.

The summary is accompanied by a number of points of fact, reasons which guided the commissioners in reaching their conclusions. In this statement the assertion is made that the Atlantic division of the C. P. R. is shown to be the most profitable.

The rates in the maritime provinces are low, not only as a result of water competition, but also as a result of the increased traffic and port operations which have largely resulted in deficits.

The earnings of this division on the mileage basis are also held down by the fact that a large percentage of the traffic is through.

Solicitor General's lantern, Mrs. Drummond flung it at the magistrate's head but he dodged the missile.

Taking advantage of the diversion, Mrs. Drummond slipped from the enclosure but was captured before she got far away and was carried back shouting and struggling.

Vancouver, April 8.—J. Waldron, South Vancouver dealer, was recently fined \$10 under the Lord's Day Act for selling bread on Easter Sunday. He therefore does not feel justified in directing any change until the board is afforded an opportunity of seeing what improvement in passenger revenue will result from the improvements in rail and grades and operating facilities which the railway is at present making.

The summary is accompanied by a number of points of fact, reasons which guided the commissioners in reaching their conclusions. In this statement the assertion is made that the Atlantic division of the C. P. R. is shown to be the most profitable.

The rates in the maritime provinces are low, not only as a result of water competition, but also as a result of the increased traffic and port operations which have largely resulted in deficits.

The earnings of this division on the mileage basis are also held down by the fact that a large percentage of the traffic is through.

The "General" valiently declared that she would never pay the fine. She was forcibly removed to a cell. All she did was to sit down and cry. She kept up a fierce struggle with the lie and warden and shrieked denunciations of every one present.

Even a sister suffragette, Margaret, who had been the victim of a verbal attack because she did not storm the prisoners' enclosure and release the "general,"

PAT CONNELLY IS READY FOR THURSDAY NIGHT'S WRESTLING

Will Underlake to Throw Kid Sandoval and Cyclone Berg Within the Hour—Champion Has Hard Task Ahead of Him—Is Champion of Great Britain.

Second point of interest only to the Horse Show is the great heavyweight wrestling bout between Pat Connelly and two others. Thursday night at the Bijou Theater, First street. Connelly who is the recognized heavyweight catch-as-catch-can wrestler of Great Britain and the colonies will undertake to throw Kid Sandoval and Cyclone Berg in one hour. Both of the last two years have been wrestlers of repute and can be counted upon to give Connally a battle royal when they hook up tomorrow night. Pat Connelly has been in the wrestling game for the last seven years and has yet to receive his first title. He has met many of the best heavyweight men in the business and always managed to keep his shoulders from being pinned in the mat.

Connally is anxious to meet that well known wrestler Doc Roller of Seattle. He has been trying to get a match with him for years but the champion is wise enough not to hook up with Connally as the husky Pat would be very liable to turn the trick on him and then the job would be for Roller. The tickets for the match tomorrow night are not on sale at Berthe &

GEORGE CHIP KNOCKED COLD FIRST ROUND

Well known heavyweight is Knocked Senseless by Man Named McCoy.

New York, April 8.—A. L. McCoy of Newark, knocked out George Chip, a boxer from a local claimant for the middleweight title in the first round of their 10-round match last night.

The bout came after one minute and 40 seconds of fighting. The result was a great surprise, as McCoy had been considered only a fairly good middleweight.

In the first round, Chip assumed the offensive and was forcing McCoy around the ring when the latter landed his first blow—the knockout. This was a left hooking head punch which landed on the boxer's chin. Chip fell to his back, his head striking the floor and he was unable to rise at the referee's count of 10. He was carried to his corner, where he was still unconscious several minutes after the people had left.

Chip weighed 162 pounds, six pounds more than his opponent.

Johnson vs Shrawd Scherer.

Irresponsible as he may seem at times Jack Johnson is a pretty shrewd schemer, to give him his due. Let it be known that he is now planning to return to the United States—and needlessly to the state of Illinois—and that within a few months he satisfies the speed limit with "the Works" by looking out Gunbarrel State, also let it be assumed that Sam Langford also returns home, where he trains, say Pelham Smith and others. Then Johnson might command, somewhere in the United States, would be many times the best the National Sporting club is likely to offer them.

ARREST BOOKIES AT RACE TRACK

Jamestown Authorities Will Put Stop to Gambling There.

Jamestown, N.Y., April 8.—A dead blow was dealt to gambling in Jamestown race track yesterday afternoon by Attorney-General Pollard at the Jamestown track yesterday afternoon when he visited the course with force and arrested 12 bookmakers laying odds on the horses running here, shortly after they had marched up the prices in the opening races. Such a raid was expected and the friends of racing had hoped that only one arrest would be made as a test case. Coming as it has, and all offenders being arrested, the members of the sports world will hope this will be the spring meeting here, which was scheduled to run until the sixteenth instant. This may possibly be the last day racing.

Welsh Football Club.
A game of Welsh football will be held tomorrow at Bielen 216 Main Street, Namur, avenue, when important business of the club will be discussed.

Barbarians Meet.
The Barbarians British Army team will be in a meeting in the American tonight at 8 o'clock. All interested and all members are requested to be present.

A Louisville manufacturer declares 2,000,000 bats are produced annually in the United States, making an average of one base hit per bat.

"Knockouts"

American pugilists in Paris, having had dealings with the London National Sporting club, declare it is afflicted with tightness of both fists. They point to the fact that a weight of \$100,000 is given as a high water record for Bettinson's club—admitting the while that it was three times too much for any fight with Bomber Bill. With a purse of \$101,000 hung up by Tex Hickman and Jimmy Cuffroot at the London-Jeffries affair, with an additional \$100 given to Reno, with an additional \$100 for the middleweight title in the first round of their 10-round match last night.

The knockout came after one minute and 40 seconds of fighting. The result was a great surprise, as McCoy had been considered only a fairly good middleweight.

In the first round, Chip assumed the offensive and was forcing McCoy around the ring when the latter landed his first blow—the knockout. This was a left hooking head punch which landed on the boxer's chin. Chip fell to his back, his head striking the floor and he was unable to rise at the referee's count of 10. He was carried to his corner, where he was still unconscious several minutes after the people had left.

Chip weighed 162 pounds, six pounds more than his opponent.

Johnson vs Shrawd Scherer.

Irresponsible as he may seem at times Jack Johnson is a pretty shrewd schemer, to give him his due. Let it be known that he is now planning to return to the United States—and needlessly to the state of Illinois—and that within a few months he satisfies the speed limit with "the Works" by looking out Gunbarrel State, also let it be assumed that Sam Langford also returns home, where he trains, say Pelham Smith and others. Then Johnson might command, somewhere in the United States, would be many times the best the National Sporting club is likely to offer them.

AD. WOLGAST WAS FOULED BEFORE HE ENTERED THE RING

Ritchie Declares That Michigan Boxer Fooled Physician by Artificial Discoloration.

Willie Ritchie, lightweight champion, has no grudge against Ad. Wolgast, who he beat once and lost a title, but he is inclined to believe that even though he has been accused of "fixing" his fight with Gunbarrel Smith, also let it be assumed that Sam Langford also returns home, where he trains, say Pelham Smith and others. Then Johnson might command, somewhere in the United States, would be many times the best the National Sporting club is likely to offer them.

WHEN JOE LALLY HITS OUR TOWN

Joe is Coming to Boost La-crosse and Not to Sell Sticks.

Joe Lally is coming. Who is he, did you ask? Why Joe is—the man that makes lacrosse sticks down east. Sure, he makes them by the thousand. He's been in that business for years. Now you know, don't you? Yes I knew you did.

But Joe Lally is also a booster of that good old game lacrosse. Sure it's good for the stickies. We like sticks too, but that's got nothing to do with it. He's coming to Alberta to boost the lacrosse game among the school and amateur boys. To organize teams, yes, dreams of them, to get the game going like it used to in the good old days back east.

Joe Lally has more about his game than most anybody else. He might be the maker of lacrosse sticks. Sure there you are again talking about those lacrosse sticks. Forget about them for a while.

Joe has been doing a tour of the west and coast for several weeks now and is cutting some ice too. He's got them all at it. Yes he has. In town and city after city he's far out here. He's taken to his pet game like flies to a cream pitcher. And we don't blame them either, for it's a grand game, is it not?

You're coming to Edmonton too. Sometime next week perhaps. We've been in correspondence with him and his right hand man, Mr. H. J. Harten, for many weeks now, but all he's ever been able to say is that he'd be here when he got here, and that when he got here he'd be here, so there you are, that's how I know he's coming.

The kids are waiting for him too. The school kids I mean. Sure they know him, his name's on every lacrosse stick they've ever seen. And why shouldn't he? He made them.

He's down around Calgary about now and they're going to make it real pleasant for him there, and they're going to try to bring him along to Edmonton, and of course they've all got to have sticks you know, and as Joe says sticks, they're going to buy them. And they're going too, for Joe is the man that sold them interest and in the first place to play the game at all.

No there you are, Joe Lally is the greatest all-round booster of Canadian national game that ever hit the west, and when he goes things going in Edmonton, he's got to go and sell big orders for lacrosse sticks too. Now there you go again, can't you forget about the lacrosse stick part of it and just say that Joe is coming to boost the game here. Oh very well, we should worry.

"STUB" SPENCER

"Stub" will again take his turn behind the bat with the Edmonton Eskimos this year.

ESKIMOS DROP ANOTHER GAME

Vancouver Beavers Seem to Have Edge on Local Ball Outfit.

Vancouver, April 8.—With all the members of the Vancouver North-Western Indians defeated in their opening game against the Edmonton Twilight League team and the Kee University team from Japan, yesterday afternoon in seven-inning contests, the Beavers showed strong form. The Beavers showed strong form with the bat and fielded brilliantly. Scores:

Vancouver 5 9 0
Edmonton 0 2 2
Twilight—Daly and Cheek; Killett and Lamieus
Vancouver 1 4 0
Batteries—Jones, Northrup and Grindell; Sugars and Harri.

Ball players argue that Walter Johnson is a dangerous player to his effectiveness. They say that his control is as good as players who have faced him before never have any fear of being hit, consequently hug the plate and take a chance on hitting the ball.

Hits, Runs and Errors.

* * *

"Diamond Dust Gifts Through the Bat Bag."

The presence alone of Tim Jordan on the Toronto Leafs in his present mood will be an inspiration to the younger stars and an encouragement to the older members of the club. Hitting well, there is no scrapper played in the league, and his happy faculty of keeping his team in high spirits by going well himself is a source of strength and the starting point of many victories.

We do not like to knock the Boston Braves, but we wonder whether Temporal Evers will hitch up with Boston. That are fine a pair of artists to pair up with.

Ty Cobb made a pinch speech in the Mississippi legislature when rain prevented the game in which the solar wanted to attend. In these days of豪華, the amateur boxer is a better bet than the professional boxer. While the amateur boxer can afford to neglect public speaking. Since there is already a large crop of Rudyard Kiplings writing for the newspapers, it is well that new Daniel Websters and Willard Lauritis be developed among the play-

ers. Frank Chance does not believe that staking chips and boosting the indoor national game is con-

ROY DUDLEY

Former first baseman of the Edmonton Eskimos who will play the initial sack with the Hamilton, Ont., Canadian League Team.

"LEFTY" HEINRICH

"Lefty" has signed to play with the Eskimos this year but as yet has

TODAY IN PUGILISTIC ANNALS

1891—George Dawson defeated Walter Johnson in 10 rounds at New Orleans for the lightweight championship of Australia. Three years Dawson, who was popularly called "Gentleman George," came to America and defeated several good welters, including the Englishman Tommy Ryan for the title at New Orleans. He, the Syracuse boxer backed out on the day scheduled for the bout, also that he had withdrawn. While he never attained the title, he was one of the cleverest boxers that Australia has ever sent us, and he taught Bob Fitzsimmons many of the fine tricks of the game. After quitting the ring he became a successful architect at the Chicago A. C. and is said to have accumulated a snug fortune. Dawson was famed as the master of the kidney punch.

1858—John Morris, lightweight champion, born in Norfolk, England, 1902—Sandy Ferguson defeated George Byrnes in 10 rounds at Boston. 1912—John Morris defeated Leach Cross in 10 rounds at New York.

"One of the best chances for beating the Athletics is to take advantage of their confidence, and play on it. They lost the pennant in 1912 because they were too confident."

WELLS WOULD FIGHT COFFEY

Battle for Heavyweight Cham-pionship of Great Britain.

Brittan.

New York, April 8.—Arrangements have been completed for a fight between Jim Coffey, the Dublin giant, and Tom Wells, the New Zealand heavyweight champion of Great Britain, according to private cable advice received here yesterday. June 29 has been set as the date.

The fight will be held under the auspices of the National Sporting Club.

Red and Gun Man Here.

D. B. Taylor, representative of Red and Gun magazine, published at Woodstock, Ont., is at the King Edward hotel. He is touring the west on business connected with his magazine. It was stated this morning that Edmonton is more in the public eye down east than any other western city. Mr. Taylor is for a time editor of the Daily News of Prince Rupert, B.C.

One of the young pitchers trying out with the Pacific Coast Nationals is George Fahey, a southpaw, who is one of the largest players in captivity. He is 6 feet 4 inches tall and weighs 206 pounds. He will be remembered here as a pitcher on the Tacoma club of read Miss Fan. "What?" said Mr. Fan. "He can't be much of a player."

The La Rose Cigar & News Store

We carry the standard "Brand" of Cigars and Tobacco of the world. Our cigars and tobacco are "enough to be good" —good enough for the discriminating smoker. Come in and get acquainted.

LEGAL BUSINESS
IN LOCAL COURTS
TAKES BIG JUMP

Receipts at Land Titles Office
For March \$8000 in Ac-
cess of February.

SUPREME COURT JUDGES
SAT SIXTY-FIVE DAYS

Judgment Given in 195 Cases
During First Quarter
of Year.

Great increases in the legal business transacted in the Edmonton courts, in the sheriff's office and in the land titles office are recorded in March, and for the first quarter of the year.

The receipts at the land titles office for March were \$8,000 in excess of those for February. The receipts from sheriffs' executions came into the record office, and there were larger sums in March than in any previous month on the history of the office.

The supreme court judges sat in Edmonton on 65 days in the quarter of the year. There were 60 written for summonses issued during the quarter. Judgment was given in 195 cases and writs of execution issued in 181. Orders issued by the court numbered 134.

Chattel mortgages and bills of sale registered numbered 1114 and 161 notes registered 3169. Bills of lading registered numbered 100. The quarter amounted to \$22,720.00 and \$44,251.20 was paid out, the amount in court at the end of the quarter being \$7,294.00.

In criminal cases were tried during the quarter, and there were 24 convictions and seven dismissals.

Naturalizations granted numbered 362.

MARTIN HARVEY A
PAINTER AS WELL
AS GREAT ACTOR

A correspondent who has known the painter and actor, Martin Harvey, who is touring Canada under the auspices of the British Canadian Theater Organization, has informed the writer that the story of his professional work in London sends us the following interesting little sketch of a side of the great actor's life and attainments which is most peculiar.

"A man who has met Martin Harvey in his private life," he writes, "must have observed how real and fundamental the nature is of his art and his craftship. In some respects no doubt this trait is an inheritance from his father who as a naval architect specialized in the design of the most graceful and all water-craft, racing yachts. It was originally intended that the son should continue the same profession but the painter of more than 200 pictures has now turned to the stage. He is never so happy as when the brief leisure of the summer vacation enables him to resume his work with the palette and brush. In the theater the form of sketches from which some of the most beautiful scenes and costumes in various varieties of dramatic literature have sprung. Another hobby which arises from the same innate love of the fine arts is that of collecting. The charming house of Mr. and Mrs. Martin Harvey is filled with specimens of antique bronzes and ivories which have been discovered and bought by the actor at curio dealers in various parts of England.
